

13th June 2017

NEWINGTON CEP SCHOOL

Dear Parents / Carers,

As part of the PSHE curriculum, we need to teach the children in Year 6 about Puberty / Growing Up. In the past the school nurse team have often come in to school and helped to teach this part of the curriculum, however, due to changes in school health, they now no longer offer this service. This will now be taught by Mrs Witherden and Miss Young to our current Year 6 class. This will involve the showing of a DVD (that has been recommend by the school health service) and answering any questions that the children may have, on the topic of Puberty and Growing Up. Please note that this is a different DVD that you may have come in and watched last year.

Parents are invited to view the Puberty DVD on Tuesday 27th June 2017 at 9am, when Mrs Witherden will also be in school. Please complete the slip below if you wish to attend this session.

The children will be taught about Puberty on Tuesday 4th July 2017. If you have any questions or wish to discuss anything related to this, please do not hesitate to contact me.

Please return the form below to indicate if you will / will not be attending on the morning of Tuesday 27th June to view the DVD.

Yours sincerely,

Mrs Trudi Godfrey

Head of School

I will / will not be attending on the morning of Tuesday 27th June at 9am to view the DVD.
